

1ST | VanBrouck | Luxe Homes,
with Ellwood Interiors

Evocative of the Hamptons, this classic residence, situated atop a grassy knoll, offers views of beautifully landscaped gardens and mature trees. The architectural detailing that defines the gorgeously proportioned exterior is integrated throughout the interior spaces, creating an artful composition and an immensely livable home. Traditional white-glazed panel-millwork orchestrates a refined, timeless aura in the entry hall, library, dining room, and music room, while cottage-style shiplap-millwork — showcased in the library, master suite, mud hall/laundry room, and children's bedrooms — evokes an easygoing ambience and nostalgic charm.

2ND | Arik Green
Design

3RD | Heller & Associates Design + Build,
with Marilyn Silberman from Studio Loft

“ Designer’s Insights

The Arik Green Design home which was constructed on a former apple orchard, is a 4,000-square-foot contemporary farmhouse that truly provides something for everyone. It is such a livable home.”

— Judge Meg Lonergan
